Re: United States v. Roger Thomas Clark
15-cr-866 (AJN)

Dear Judge Nathan:

I write to provide updated information on Roger Clark's current health and his ability to proceed to sentencing. I communicated with Mr. Clark Wednesday, July 21, 2021. He advised me that his strength and stamina have continued to improve. However, his mental "fog" persists. He provided the following as examples: When he's communicating with this cellmate, he, Mr. Clark, frequently loses track of what he is discussing. To function when focus is required, he has to write himself notes. Mr. Clark reports that these cognitive lapses impair his ability to write a letter to the Court describing his remorse for his participation in the offense, his ability to address the Court during sentencing and his ability to communicate effectively with me. I therefore ask that the Court permit me to file an additional letter on or before August 6, 2021, advising the Court of the status of Mr. Clark's health at that time.

SO ORDERED.

I have consulted with the Assistant United States Attorneys who are representing the government in this case, and the government has no objection to this request.

Respectfully submitted,

 /s/
Stephanie Carvlin
